THE MONTPELIER CENTER FOR ARTS & EDUCATION

PROTECTING OUR PAST, BY SECURING OUR FUTURE

ENDOWMENT
PLAN

WHY?

The Montpelier Center and the beautiful Montpelier School serve as a treasured focus in the Western Hanover region. The Center has grown from its founding 30 years ago to become an iconic homegrown nexus for art, entertainment, and education. The Center provides programs small and large to include preschool, art, music, dance, plays, lectures, festivals, holiday events, summer camps, and on and on. The Center touches the lives of over 35,000 people a year. Young and old, near and far, there is something for everyone .

WHY NOW?

The purpose is to provide resources to help The Center programs grow in number and quality and to keep the building and grounds safe, secure, and inviting. The recent pandemic showed how important it is to protect the things we love. About 30% of nonprofits nationwide closed during Covid. The endowment principal will serve as a financial anchor to protect the school building and its mission.

HOW?

The plan is to create a restricted endowment for The Montpelier Center for Arts & Education of at least \$3,000,000 from gifts and bequests. The principal will be tightly constrained, but a portion of the yearly income will be available for program and facility needs. The remaining income will be reserved
